2021 10-D Academy LIVE Course Schedule

Join us for our upcoming Information Security Training courses scheduled in 2021. We've included everything from Information Security Fundamentals for managers at financial institutions to our Certified Banking ISO training, to new content for those certified.

Enroll today for the class which best fits your schedule at <https://10dacademy.com/>.

Ransomware - May 13th or October 14th, 2021 - *perfect for ISOs, IT Director, etc.*

The ideal ransomware response is preventative; avoid the attack in the first place.

In this class you will learn how to plan for, prevent, and respond to ransomware attacks on your business. Half-day video conference course.

Essential ISO Course - Feb. 16-17, April 6-7, May 11-12, or Sept. 21-22, 2021 - *ISOs, soon to be ISOs, IT Admins, etc.*

This Essential ISO Training course is specifically designed to help both new ISOs and those who would like to establish a base-line of knowledge to help them successfully navigate this critical role. 2-day video conference course.

Information Security Fundamentals - June 10 or September 23, 2021 - *great for managers of financial institutions*

Every Manager level employee and higher at a financial institution needs a general understanding of an information security program (ISP). This course is designed to provide an understanding of what a comprehensive ISP looks like, and how examiners expect it to be implemented within an institution. 1-day video conference.

Advanced ISO Course - March 16-17, April 20-21, June 8-9, or October 12-13, 2021- *ISOs, soon to be ISOs, IT Admins*

The Advanced ISO Training Course takes an in-depth look at specific areas of regulatory focus and where institutions often struggle. A general understanding of banking and information security and continuity programs is a plus, but not a requirement for this course. 2-day video conference course.

How did we miss that? Most common IT Audit Findings - February 18 or April 8, 2021 - *perfect for ISOs, IT Director, etc.*

Your institution's IT audit should enhance your Information Security Program, hardening your institution's policies and controls and adding a layer of assurance for you and your customers. 1-day video conference course.

Trainings designed for Financial Institutions by industry experts!
